SUMMARY

Results-driven full-stack web developer and technical leader with 7+ years of experience building intuitive, high-performance web applications. Passionate about turning complex problems into elegant, user-friendly solutions at the intersection of logic and creativity. Expertise centers on the JavaScript ecosystem end to end - modern JS/TypeScript, Node.js, Express, Fastify, React, Vue.js, and related libraries and frameworks - paired with Python/Django and PHP on the backend, and MySQL, PostgreSQL, and MongoDB for data persistence. I am the founder and CTO/CEO of Code Zerra, where I architect scalable digital platforms, lead DevOps initiatives, and deliver production-grade solutions including cross-platform applications, interactive tools, and technical education portals. Recognized open-source contributor and technical blogger in the Sierra Leone tech community. Open to work and available worldwide.

WORK EXPERIENCE

June 2023-Current

Founder / CEO / Software Engineer

🏢 Code Zerra
📍 Freetown, Sierra Leone

- Spearhead technical strategy and development for Code Zerra's digital platforms, encompassing PHP-based blog systems (blog.codezerra.com), upskilling portals (upskill.codezerra.com), e-commerce solutions, and business applications.
- Architect and implement robust DevOps workflows, CI/CD pipelines, automation tools, and cloud deployments utilizing Railway Cloud and Docker.
- Lead full-stack development initiatives, leveraging expertise in JavaScript/TypeScript, Node.js, React, Vue.js, Express, Fastify, Python/Django, PHP, MySQL, PostgreSQL, and MongoDB.
- Design and deploy interactive web tools, including multi-language online code editors and data-driven dashboards.
- Oversee the technical research and delivery of production-grade projects such as pharmaceutical tracking systems, GDP analytics dashboards, video editors, and custom enterprise solutions.
- Mentor junior developers and author technical content focused on DevOps best practices, CI/CD implementation, and modern engineering workflows.
- Spearhead technical strategy and development for Code Zerra's digital platforms, encompassing PHP-based blog systems (blog.codezerra.com), upskilling portals (upskill.codezerra.com), e-commerce solutions, and business applications.

EDUCATION
